# NATURE RECOVERY

British naturalist and broadcaster, Sir David Attenborough, recently told followers

**“...the world is in trouble...but we know what to do about it.”**

The damage we are inflicting on nature and our natural environment is becoming more apparent and we are now at a tipping point. Despite significant public support, wide-ranging governmental policy and funding and substantial action by land owners and conservation organisations, the UK has become one of the most nature depleted countries in the world.

To help our local town and parish councils learn what they can do to encourage and protect the natural environment, Eden Association of Local Councils and Carlisle Parish Council Association are jointly offering a councillor and clerk forum, at which Paul Evans of Cumbria Local Nature Partnership will:

- Highlight the state of nature
- Explain the pressing need for us to develop a Nature Recovery Network
- Outline developing plans in Cumbria for all parts of society to come together to help nature recover in your garden, village green, work place or farm.

**Date: Wednesday 28 October 2020**

**Time: 6.45pm for 7.00pm start**

**Place: Virtual meeting room**

**(joining details in the accompanying email)**

Join our virtual forum and find out what your town or parish council can do to pass on a healthy natural environment to future generations...
